Czech republic

## PROFILE

Frontend developer with a strong background in design and web application development, specializing in JavaScript with a focus on React, TypeScript, and Next.js. Along with staying updated on the latest technological trends, software development and continuous improvement in programming have played a major part in my daily activities for many years. Outside the tech world, writing is one of my great hobbies, which has led to several published articles and eventually my first book.

**Expertise:** Web Design, Software Development, User Interface Optimization, SEO.

**Skills:** Creativity, Communication, Team Collaboration, Fast Learner of New Technologies.

## EXPERIENCE

**beKind: Frontend Developer | Barcelona, Spain**

**1/2025 - 4/2025**

- Developed web app with Next.js ensuring high performance, modern standards, and strong SEO
- Contributed to the UX/UI design process, with an emphasis on intuitive navigation and user-centered design
- Implemented responsive and clean front-end interfaces using reusable components and best practices

**Take a Break: Frontend Developer | Barcelona, Spain**

**7/2024 - 1/2025**

- Developed a full-stack B2B web app for scheduling meditation sessions using Next.js and TypeScript
- Built a modern, responsive UI with React, TailwindCSS, and ShadCN, ensuring smooth user experience
- Managed databases with PostgreSQL and Prisma, optimizing performance and data integrity
- Integrated third-party APIs for real-time session updates and authentication

**Controlant: Technical Customer Analyst | Reykjavík, Iceland**

**11/2021 - 8/2024**

- Handled logistics inquiries for pharmaceutical products, ensuring safe transport worldwide
- Monitored shipment data, identifying and resolving anomalies with data-driven insights
- Conducted root-cause analysis on operational trends, delivering solutions to meet regulatory standards

**GVC: Customer Protection Expert | Gibraltar, United Kingdom**

**2/2020 - 7/2021**

- Acquired specialized knowledge in gaming platforms and anti-money laundering frameworks
- Utilized data analytics to detect and mitigate suspicious financial behaviors, enhancing customer safety
- Delivered regulatory-compliant solutions to ensure adherence to industry standards

**Kiwi.com: Customer Relations Advisor | Brno, Czech Republic**

**1/2016 - 10/2019**

- Delivered high-level issue resolution for customer complaints via optimized communication pipelines
- Provided actionable feedback to stakeholders and collaborated on workflow optimization
- Supported KAYAK operations as a contractor, addressing customer issues with data-backed resolutions
